D I G I T A L K E E P E R

One pager 2023

Cybersecurity made for SMEs.
We are the startup that is revolutionizing
the way of doing cybersecurity in LatAm.

WE ARE A TEAM PASSIONATE ABOUT CYBERSECURITY.

We believe that SMEs are the most vulnerable target in this new paradigm of digital transformation and remote work, which has exponentially increased the attack surface.

That's why we created Digital Keeper, because cybersecurity should be simple and accessible to everyone.

3 IN 1 APPROACH

next-gen technologies

Antivirus is no longer enough. We democratize access to market-leading technologies, the same ones used by large companies, to protect computers, servers, email and more.

AI ENGINE

Proprietary Artificial Intelligence engine that gives us unprecedented visibility. Through pattern recognition and anomaly detection we offer cybersecurity on steroids.

MANAGED DETECTION & RESPONSE

Our team of experts monitor and remediate to stop cyberattacks before they happen.

4 THINGS THAT MAKE US DIFFERENT

1.-SME DNA

Company created from scratch to offer a cybersecurity solution tailored to SMEs. We want to contribute to SMEs in LatAm enjoying a safer ecosystem.

2.-Technology

We democratize access to the best technologies and complement them with proprietary cyber intelligence based on Artificial Intelligence.

3.-Flexibility

Services as-a-Service with monthly billing that does not impact your budget.

4.-Cyber experts

We work as an extension of your team. With our managed services, we take care of you so you can focus on your business.

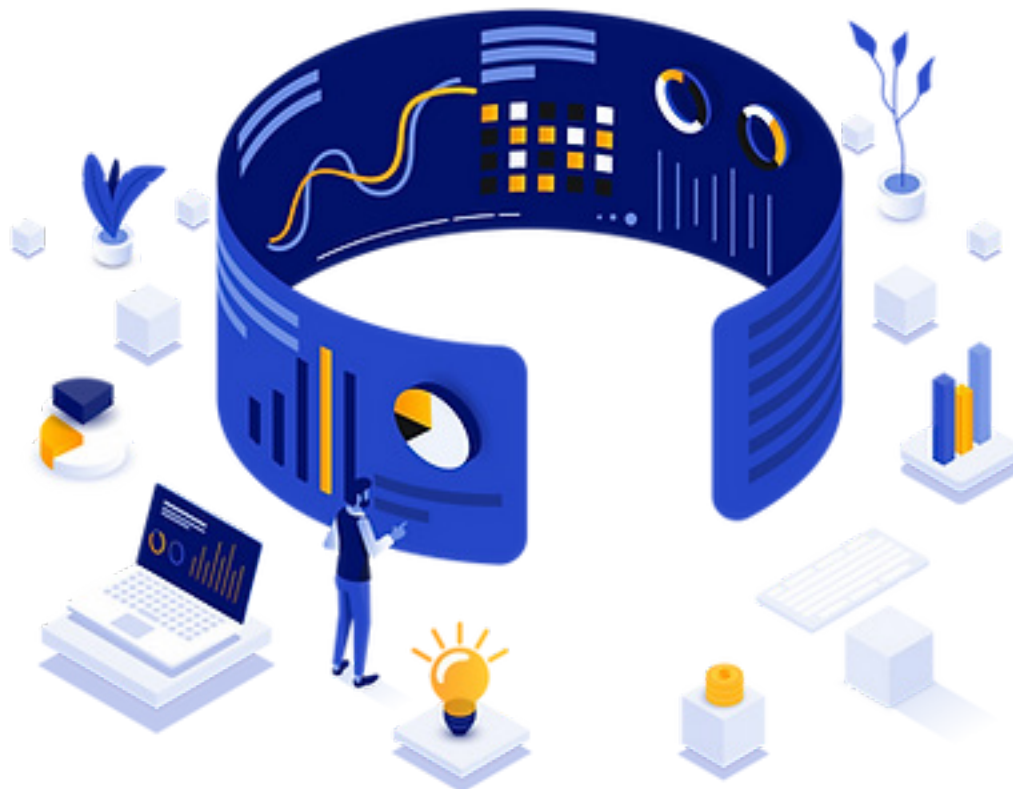

SERVICES.

Managed service that protects the main vectors through which a hacker can attack SMEs: computers (desktops and laptops), servers, email and more. We go much further than your traditional Antivirus...

HOW DOES IT WORK?

Superior protection in three easy steps.

1. Select what you want to protect (# of computers, servers, email boxes, etc.), we'll take care of the rest.
2. Continuous monitoring of alerts by our experts and real-time containment of cyber attacks.
3. Remote implementation and in minutes of security software.

Your best partner to do business in North America.
