SOLUTIONS THAT FEED THE WORLD

Bison develops sustainable technological solutions that increase the productivity of the people who feed the world.

With more than 35 years serving the field and a presence in more than 32 countries, Bisoñ is consolidated as one of the most important brands of agricultural implements in Mexico and one of the leading suppliers of the agri-food industry in Mexico.

There are 5 strengths that characterize the products developed by Bisoñ:

- 1. Quality
- 2. Effectiveness
- 3. Efficiency
- 4. Service
- 5. Durability

Bison's operation centers are in Aguascalientes, Mexico and in Oklahoma, United States; where they carry out research, logistics, manufacturing and marketing activities, achieving efficiency in the processes of planning, production and delivery of products.

The facilities in Aguascalientes are built on more than 70 thousand square meters and a work force of more than 390 collaborators.

Thanks to Bison strategic locations in the Bajío, they have easy access to the main ports and customs to reach all the world's markets.

Quality is part of Bison DNA, which guarantees maximizing the investment of its clients.

Bison has international certifications:
