

El Gran Bajío

One pager 2023

Mexican company with more than 40 years of experience in the steel industry. Established in the city of León, Guanajuato, we have gradually expanded our production capacities to offer products and services according to market needs.

In 2019 we were certified in ISO 9001:2015, offering our clients the support of a company that works under established standards.

PRODUCTS OR SERVICES:

- Classic grate.
- Guard grate.
- Tubular fence
- Security Peaks

Kelso mesh

It is an electro-welded mesh made of polished wire that offers resistance, security and firmness in each of its welded points.

Pedestrian Fence

Allows you to delimit the spaces you can imagine: Massive events such as sports, parades and concerts, restrict access in work areas or under repair. Due to its ease of installation, you can take it wherever you want.

Mining Mesh

Ready for installation; high underground fortification; Supports a lot of weight; Customization

of measures; No spikes at the ends, greater safety in handling and placement

Engineering Mesh

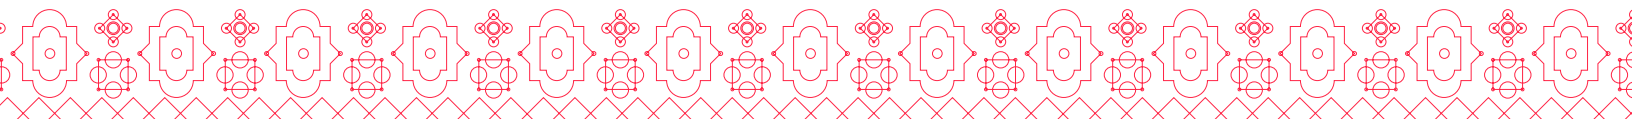

Our electro-welded meshes are manufactured in sheets with the customer's measurements and specifications, from sizes, with or without points on the edges of the sheet. We have the best electrowelding technology, offering great resistance in each of its intersections.

Construction Mesh

The sheet electro-welded mesh is made of smooth wire, which offers resistance, safety and firmness, manufactured in different gauges and adapts to your needs.

Customized Mesh

Our electro-welded meshes are manufactured in sheets with the client's measurements and specifications, from sizes, with or without points on the edges of the sheet, to the finish of the mesh, which can be in polished wire or with electrostatic paint coating.

Semi-arrow

Straightened and cut carbon steel wire, available in 2 lengths and 3 thicknesses, used in various industries processes.

ELECTROSTATIC PAINT APPLICATION

An excellent alternative for coating any piece of steel, glass and aluminum.

WIRE FORMING

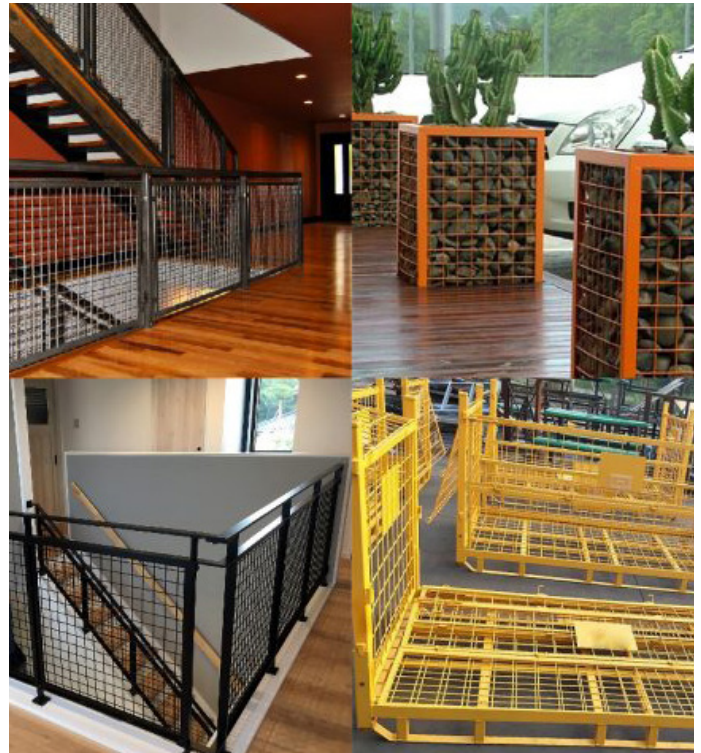

We manufacture any shape of wire for any industry through automated processes thanks to our technology that allows us to make 2d and 3d parts.

POLISHED WIRE

The raw material of your projects.

STRAIGHTENED AND CUT TO SIZE

Personalization according to your project.

Your best partner to do business in North America.
