THE
NEARSHORE
COMPANY

One pager 2023

Making things is hard. To do it consistently, at scale, and cost-effectively is even harder.

The last few years not only made things harder but also exposed our vulnerabilities. Our dependence on long supply chains from overseas. And a fragile workforce that is redefining work itself.

This is where nearshoring comes in. Making things in Mexico addresses both supply-chain and labor challenges today's manufacturers are facing.

We at The Nearshore Company Help You Manufacture in Mexico.

2

Our Assisted Manufacturing Services are tailored to **YOUR** needs and requirements.

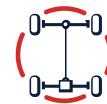

Typical nearshore manufacturing can range from the "shelter" model, in which the Mexican company provides real estate, administrative and legal services, and you do all of the rest to manufacture your goods, to "contract manufacturing" in which the Mexican company manufactures to the client company's design and specification.

We at The Nearshore Company pride ourselves in our flexibility and work in the entire spectrum –from "shelter" to "contract manufacturing" and everything in between.

Our current and past clients have come from a wide range of industries, including, but not limited to:

Appliances

Automotive

Electro-Mechanical

Aerospace

Textile

Medical equipment and supplies

Our certifications:

Shelter Model

Contract Manufacturing

To further assist our clients, we have our own facilities and equipment related to:

Plastic Injection, Molding, Assembly & Decorating
(Paint, Laser, Etching, Pad Print)

Acid Zinc-Plating

CNC Machining & Fabrication

Cut, Seal & Sew
(Film, Vinyl and Fabric)

How Do We Work?

If there's one word to answer this question, it is **FLEXIBLY**.

1. First, we actively listen to you and your team to understand your challenges and aspirations.
2. And then, using our over 30+ years of experience, we make recommendations.
3. We will work hand-in-hand with you to create a plan, find solutions, and get things done. From cost estimation, site selection, legal compliance, employee recruitment, payroll, and union negotiations, to trade & customs management, logistics & warehousing solutions, accounting & taxes, QA management, and any other operational assistance needed for you to start your production in Mexico.

Transfer your manufacturing operation to Mexico and enjoy a range of advantages. The Nearshore Company provides SEVEN clear benefits to most manufacturing companies without you having to cross any sea at all!
